

Assignment Wednesday September 24nd Blended Physics

A) Take notes over Vector Components and Projectile Motion. Both videos are on Moodle.

B) Complete the Projectile motion worksheet and turn it in on Thursday.

I hope to have tests graded and in the grade book sometime today.

No other work.

If your grade is below an 80 you have to come in until it goes above an 80. If you did not turn work in then you have to come to class. If you were absent you also have to come to class to make up the day.
