

Assignment Wednesday October 15th Blended Physics

- A) Take notes over Momentum. The notes are split into 2 parts and you will just take notes on part one today.. The notes are labeled Momentum Notes Part 1.
- B) Start working on the Momentum problems that I assigned. I have supplied most of the answers. You must show Givens, Formula, Work and answer for all problems to get credit. These problems are due Tuesday next week.

No other work.

If your grade is below an 80 you have to come in until it goes above an 80. If you did not turn work in then you have to come to class. If you were absent you also have to come to class to make up the day.
