

Assignment Friday October 17th Blended Physics

- A) Take notes over Momentum. The notes are split into 2 parts and you will just take notes on part two today.. The notes are labeled Momentum Notes Part 2. (**My Momentum Part 2 Video messed up I need to rerecord it and post it. It will be posted on Saturday sometime**) sorry ☹
- B) Work on the 2 worksheets you have over momentum. Both worksheets are due Tuesday next week.
- C) The midterm review is posted on Moodle. Start looking over this review. Your midterm is Friday next week.

No other work.

If your grade is below an 80 you have to come in until it goes above an 80. If you did not turn work in then you have to come to class. If you were absent you also have to come to class to make up the day.
