

Assignment Friday October 31st Blended Physics

A) Take notes over Universal Gravitation. All of the notes have been voiced over and posted. So The 2 parts of the Centripetal Force Notes are now ready and the Universal Gravitation notes are posted.

B) Finish the workbook problems we did in class. The answers are posted to Moodle.

C) Do the Worksheet on Circular Motion. It is due Thursday next week.

No other work.

If your grade is below an 80 you have to come in until it goes above an 80. If you did not turn work in then you have to come to class. If you were absent you also have to come to class to make up the day.
