

Assignment Monday December 8th Blended Physics

- A) Notes over Electric Fields and Electric Potential. These notes are in 2 parts. I will have the notes up during 4th period today.

We will have visitors in class Tuesday. Make sure you know the notes they may be asking questions. They will be filming us.

I will **not** be in class today. My son is sick. If you owe me time I will count today as a day you owed me even though I am letting you go.

Have a good day!
